## Summary

I have over two years of experience in the outdoor education field, where I have organized and facilitated programs primarily for children and occasionally for adults. As a dedicated mountaineer and climber with extensive trekking experience—including two 6,000-meter treks—I bring a strong foundation in outdoor skills and safety practices. My love for the outdoors drives me to create immersive, hands-on learning experiences that connect participants to nature. Skilled in teaching sustainability, Leave No Trace principles, and bouldering, I lead engaging, educational programs that inspire curiosity, resilience, and respect for the environment. My goal is to foster a lasting connection to nature and cultivate responsible, knowledgeable outdoor enthusiasts.

## Skills

Bouldering   Cycling   Wilderness Medicine   Surfing   Wildlife Identification   Reptile Management  
Mountaineering   Rock Climbing   Snake Identification   Camping   Facilitating   Leadership

## Education

### Global Academy Of Technology, Visvesvaraya Technological University

Bachelor of engineering - Computer Science

*BENGALURU, KARNATAKA*

### NOLS

Wilderness First Responder - Wilderness Medicine

Mar 2024

### NOLS

Trip Leader India - Outdoor Education

## Experience

### Lets Play Climbing

Outdoor Educator

*BENGALURU, KARNATAKA*

Encouraging children to explore their surroundings, ask questions, and be curious about the natural world. Children often bring fresh perspectives, and their natural curiosity makes outdoor education a dynamic experience.

Helping children step out of their comfort zones by guiding them through challenges like climbing, hiking, or problem-solving tasks in nature. Watching them develop self-confidence and resilience has been one of the most rewarding aspects.

Many outdoor activities require teamwork, and children learn to communicate, listen, and work together in group settings. This helps them build essential social skills in a supportive and natural environment.

Teaching children about respect for nature and environmental stewardship. Activities like “Leave No Trace” principles, nature scavenger hunts, or wildlife identification make them aware of their impact on the environment.

Working with adults often means creating a space where they can connect with each other. Shared outdoor experiences foster a sense of community, and group discussions around a campfire can create lasting memories.

Adults are often more interested in sustainability practices, so incorporating discussions about conservation, sustainable outdoor practices, and environmental impact empowers them to become environmental stewards.

## **Amazon**

Seller Partner Associate

*BENGALURU, KARNATAKA*

Developed customized solutions for clients' unique needs, resulting in improved satisfaction and loyalty.

Responded to customers' complaints regarding service and product quality to solve issues.

Demonstrated adaptability by embracing new technologies or tools that enhanced productivity or facilitated better communication with clients.

## **Hewlett Packard Enterprise**

Network Engineer

*Bengaluru, KARNATAKA*

Improved network performance by identifying and resolving bottlenecks, optimizing configurations, and implementing best practices.

Managed, tracked, and coordinated problem resolution and escalation processes.

Analyzed, troubleshoot and enhanced network performance to drive efficiency.
