

# Alejandra & Erik

We are a **couple** of professionals who decided to venture to **New Zealand** while we are still young. We are **Argentinian** and **Danish**, respectively. Being outdoors is the source of our energy.

This is why we are looking for jobs, together or separately where we can offer our **international experience** in exchange of unforgettable memories.

We have been in contact with animals all our lives, especially **horses** and dogs. We both like working with tourists and see how amazed they become in front of **new experiences**.

Though one of us prefers “land” activities, and the other is a **water fanatic**, we still enjoy the same things in our own ways.

We have done: elephant handling, **horse caring**, scuba diving, snorkelling, kayaking, rafting, swimming and other water activities, volunteering in festivals, farms and **reptile breeding**, horse treks, long hikes, camel riding, hunting, fishing, dog training, bungee jumping, biking, **mountain biking** and bike repairing, and **so much more!**

## Alejandra

## Erik
