PERSONAL STATEMENT

I am a capable industrial engineer not afraid of doing hard work. I am currently searching the job market looking for the best job opportunity that matches my personal wants. I love nature, I am an outdoor person. In the years to come I see myself teaching and showing tourists about amazing natural resources and wildlife. I like co-working with people to best achieve a team goal. Some of the skills that best match me are: problem solving, positive attitude, communication, self-management, teamwork.
